Will Expand Water Works In Pahokee

Pahokee City Council approved plans and specifications drawn up by Russell and Axom Engineers for the extension of Pahokee Waterworks into further out in Lake Okeechobee at a meeting of the council Monday evening at City Hall. Before the plans can be officially accepted they must be approved by the State Health Department and U. S. Engineers.

The council voted to retain the firm of Elliott and Gross for \$1 a year as city engineers. This is the firm that took over the office and engineering business of the late John T. Pickett, Sr.

City Attorney Ralph O. Johnson was instructed to proceed with legal preliminaries for the construction of sidewalks on Green Star Avenue, in Vettville.

The council instructed City Clerk Patricia Batchelor to write a letter to County Commission asking for help in spraying mosquitoes within the city limits. Heavy rains have provided so many breeding places for mosquitoes that city funds set up in the budget for spraying have almost been deleted.

Mrs. Annie Lou Cooper was employed to take the place of Mrs. Joyce Arrieta in City Clerk's office.

Funeral Services For W. J. White

Funeral services were conducted for Walter James White, 75, of Canal Point, at Williams-Wetherington Funeral Chapel Monday at 3 p. m. Elder Fred R. Allen, of the Church of Jesus Christ Latter Day Saints, Belle Glade, was in charge of the service.

Mr. White, who died at his home Friday afternoon, had been a resident of Canal Point for many years. He was employed with the U. S. Sugar Corp as operator of the water plant at Canal Point.

He is survived by his wife Mrs. Edna White, Canal Point; two sons Fred and Bobby White, also of Canal Point; one stepdaughter, Mrs. Henry Sexton, Marianna, Fla.; five stepsons, H. F. Corbett, Sebring; Tal Corbett, Fort Lauderdale; Lloyd Corbett, Fort Pierce; Benny Corbett, West Palm Beach and Ralph Corbett, of Oregon, and one brother Carey White, Waycross, Ga.

Burial was at Fort Mayaca Cemetery with Williams-Wetherington Funeral Home in charge of arrangements.

Final Action On P. B. County Budget

Setting its third July meeting in a row, the County Commission next Monday will consider final approval of its new budget. The board already has given tentative approval of a \$9 million budget and ordered it advertised according to law. Some changes in the final budget are expected to be asked by the Resources Development Board's tax committee.

Mr. and Mrs. Jackie Thomas had as a recent guest her sister Miss Madeline Kelly of Fort Pierce.

Sheriff's Patrol Was Busy In June

It was business as usual with Sheriff John F. Kirk's road patrol in June in spite of vacations and a normal drop in traffic during the summer months.

The report from Lt. Ray Howard for the month shows a total of 48,164 miles driven by the patrol last month in 2,941 working hours. Twenty-eight accidents were investigated by the sheriff's department patrolmen with 470 total investigations and 47 miscellaneous calls answered. Patrolmen spent 239 hours in court last month and made 214 arrests while 116 warnings were issued. Three stolen cars were recovered, with a value of \$1,876 and one driver of a stolen car was apprehended.

Charles Stanfield Heads L. W. School

Charles Stanfield, 41, was named principal of Lake Worth High School at Wednesday's meeting of the Palm Beach County School Board.

He succeeds D. D. Caudill, who was granted a leave of absence from the school system at last week's board meeting. Stanfield's appointment was made effective July 1, the date Caudill was given his leave of absence.

The new principal has been a member of the Lake Worth faculty for the past 13 years, joining in 1946 as assistant principal and dean of boys when the senior and junior high schools were combined. He has remained assistant principal and dean of boys of the high school until his present appointment.

Stanfield went to Lake Worth from Glennville, Ga. He has a B. A. degree from Georgia Teachers' College and a master's degree from Peabody University, Nashville, Tenn.

He is married to the former Miss Nancy Morse, of Windsor, Conn., and they have two children, Suzanne, 12, and Charles, 6.

Miss Florida Will Be Chosen Sarasota

SARASOTA — A distinguished panel of judges for the 1959 Miss Florida Pageant have been announced for the three day beauty and talent show to be held in Sarasota July 16, 17, and 18.

The judges are Ben Stahl, world famous artist; David Cohen, concert master of the Florida West Coast Symphony Orchestra; Lt. Comm. Roy Goldman of the U. S. Submarine Marin; Dr. Herbert Stevens, president of the Florida State Jaycees; Myrtle Byron Liebel, a Sarasota dance instructor; Laura Tolins, director of the Sarasota School of Drama; and Mrs. Eastman Nuckolls, Sarasota educator and teacher.

All events will be held in Sarasota's Municipal air conditioned auditorium in the Civic Center. Miss Janette Buss of Belle Glade is an entrant.

Mr. and Mrs. Arlis Peoden have as their houseguests relatives from West Virginia this week.

Rardin Lost Fight On Airport Liquor

Establishment of a cocktail at International Airport, a question which has split the county commission each time it came before the board, seemed assured this week but only after another split vote.

Commissioner Kenneth P. Foster, who has long advocated a bar at the airport and who was instrumental in seeking legislation which would allow a liquor license at the base under control of the county, introduced the latest move Monday.

Foster succeeded in gaining the support of Commissioners Lake Lytal and Ben Sundy for his motion to have a cocktail lounge installed before next season.

Voting against the measure were Vice Chairman Paul Rardin, a strong opponent of the move and Commissioner Roy Michael who has always sided with Rardin in opposition to an airport bar. In all probability, the new lounge will be leased to an operator and will be run only for consumption of liquor on the premises only.

The new principal has been a member of the Lake Worth faculty for the past 13 years, joining in 1946 as assistant principal and dean of boys when the senior and junior high schools were combined. He has remained assistant principal and dean of boys of the high school until his present appointment.

Stanfield went to Lake Worth from Glennville, Ga. He has a B. A. degree from Georgia Teachers' College and a master's degree from Peabody University, Nashville, Tenn.

He is married to the former Miss Nancy Morse, of Windsor, Conn., and they have two children, Suzanne, 12, and Charles, 6.

Florida's college and universities are getting set for a crush of students two months from now that will overload the capacity of some institutions.

It's the same situation they've been facing in increasing degrees the past five years since enrollment started stepping up sharply.

But some relief is in sight for 1960.

Advance registration indicates that some 6,000 more students will show up next fall at public and private institutions that were enrolled last fall.

The anticipated squeeze will be about as heavy as it was last year when an estimated 400 to 600 eligible students were turned away from state universities for lack of housing.

The squeeze will come despite a substantial building program at state supported schools.

The biggest jump in enrollment will come in the junior colleges. State School Supt. Thomas D. Bailey said 16,000 students are expected to enroll at the 10 White and six Negro schools.

Last year the junior colleges had 9,000 students and several of the schools operated in temporary facilities. Next September these schools will occupy new buildings.

University of Florida Registrar R. S. Johnson said he expected an enrollment of 13,000, up some 700 from last year. Some new housing for married students will be available but Johnson said it was uncertain whether the school could handle the increase.

Dr. Robert M. Strozier, president of Florida State University said the Tallahassee institution was expected to have an enrollment jump from 7,400 last year to about 8,100 next fall.

The University of South Florida near Tampa is scheduled to open its doors in September 1960 to freshman students and a new class will be added every year after that until it becomes a full-fledged four year institution.

Delta Air Lines Receives Award

MIAMI — A coveted aviation award has been presented to Delta Air Lines by the National Safety Council for an "outstanding 1958 safety record."

The Aviation Safety Award is given to airlines that do not have a fatal accident during the calendar year and a major accident rate higher than their size group during the preceding three years.

Delta received the significant "Award of Honor" for flying more than 75,000 accident-free aircraft hours. The award is based on the number of hours Delta's planes were in the air, not the total mileage flown.

The National Safety Council defines a major accident as one involving serious injury to occupants or substantial damage to the aircraft.

STORM SHOWER

Mrs. Ernest Maxwell, Mrs. Billy Sheffield and Mrs. Robert Walker will be hostesses at a stork shower honoring Mrs. Elmer B. Elliott, Friday at 8 p. m. at the home of Mrs. Lee Wrotan, Bacon Point.

Colleges Pushed To Handle Students

Florida's college and universities are getting set for a crush of students two months from now that will overload the capacity of some institutions.

It's the same situation they've been facing in increasing degrees the past five years since enrollment started stepping up sharply.

But some relief is in sight for 1960.

An appeal has been made to Tallahassee residents to take students into their homes until the dormitories are ready. Dr. Strozier said that while there has been considerable response to these appeals it wasn't likely that all who wanted to enroll would get housing this fall.

University of Miami Registrar Ernest McCracken estimates next fall's enrollment will be about the same as last fall's peak of 13,577.

Florida A. & M. University's enrollment is expected to approach 3,000, up slightly from last year.

Jacksonville University, one of the fastest growing schools in Florida, is expecting an enrollment of about 2,300 next fall as compared to 2,136 last fall.

Tighter screening is keeping the crush of students from getting even larger, both at state supported and private institutions.

Stetson University at DeLand, one of the state's major private institutions, anticipates an enrollment of about 1,450 next fall, an increase of about 50 over last year. Stetson said it would have room for all students accepted under a rigid screening program.

Next year Florida will begin to get some relief from the college student crush before the big jumps come about in the 1960s.

The University of South Florida near Tampa is scheduled to open its doors in September 1960 to freshman students and a new class will be added every year after that until it becomes a full-fledged four year institution.

Pahokee Numbers Its Houses Again

A new house numbering system for the City of Pahokee got underway this week in preparation for city mail delivery which the city hopes to get within the next few weeks.

City Clerk Patricia Batchelor said W. S. Estabrook, of West Palm Beach, who has been in charge of house numbering in that city, working with city officials has worked out a system of permanent numbering. Each city block has been correctly mapped and 100 numbers allotted to each block. This provides for further building on the block without interrupting the numbering system.

Miss Batchelor said numbers may not be consecutive in the beginning because of this.

Duncan Padgett started distributing numbers for the city Monday. House owners may put up their own numbers or the city will do it for 25 cents for three numbers.

"The houses in the city have been numbered twice before," the City Clerk said. "But no provisions were made for expansion."

Street markers are also being installed in compliance with U. S. Postal regulations.

Registrar Wants Cash For Machines

An expected increase in the number of registered voters is posing a \$156,000 problem for the county commission. That's the amount needed to fill a request from County Registrar DeWitt Upthegrove for the purchase of additional voting machines.

The registrar predicted by the next spring primary election, the number of voters will jump to about 100,000 — up some 20,000 from the present figure. To handle the increased number of voters at the polls, Upthegrove said, will require purchase of 100 additional voting machines at cost of about \$1,500 each.

The commission voted to study a possibility of buying the machines now and paying for them out of next year's budget. In other actions this week, the commission:

Heard a request from the Retarded Children's Association for use of a number of buildings at Palm Beach Airforce base as facilities for a school for mentally retarded children. Took under study the possibility of taxing lands used as cemeteries.

Vote to place all utilities companies with more than 400 subscribers under jurisdiction of the State Utilities Commission. Will ask four lots of 2.5 miles on SR 15 from the Glades Office Building to Belle Glade in the State Road Department's budget.

COMPLETE TRAINING

Eugene Crews will arrive from Fort Benning, Ga., this week where he has completed his basic training in the U. S. Army, for a two weeks visit with his parents Mr. and Mrs. Dixon Crews. On his return he will be stationed at Fort Jackson near Columbia, S. C.

Spaniards Visit City Of Pensacola

PENSACOLA — Eight informal ambassadors from the Spanish government have arrived in Pensacola to assist that Gulf coast city in its Quadricecentennial celebration.

The eight Spanish artists, five men and three women, were selected by the Ministry of Art in Madrid to bring to Pensacola their age-old arts of rug weaving, mantilla embroidery, wool weaving, silver engraving, leather decorating, pottery, wood carvings and damascening, the last is an art of decorating metal introduced to Spanish by the conquering Moors in ages past and takes its name from the type of metal working executed in the ancient city of Damascus.

Workshops for the artists are the colonists' dwelling in a reconstructed 18th century Spanish village on Santa Rosa Island. Many of the tools and equipment used in the performance of these traditional Spanish crafts, as well as the skills themselves, are much the same as the original settlers in the village employed.

Asked why they accepted the opportunity to visit the United States, all professed a deep curiosity and desire to learn first hand about this country. The silversmith has already decided he would like to stay in the United States permanently.

The other seven expect to return to Spain but would like to extend their stay anywhere from a year to four years to allow time to travel this country which is more than fifteen times larger than their own.

Safety Week Helps Center Attention On Accident Prevention

Each year 12,000 persons are killed on American farms. Another 1,000,000 are injured. Human failure, ignorance and carelessness are the main causes of these accidents. To emphasize accident prevention among farm families, July 19-25 is National Farm Safety Week, sponsored by the National Safety Council and the United States Department of Agriculture.

The Florida Agricultural Extension Service says rural residents can help in the battle against farm accidents by making regular inspections of their homes, buildings, fields, machinery and equipment.

The theme of this year's Farm Safety Week is "Safety Makes Sense". It does make sense. It could save your life.

Farm Safety Week is a good opportunity for rural residents, and city folks too, to take a few lessons in safety—and then practice them all year.

As groups, farmers can work for safety. Rural organizations should make accident prevention a part of their activity, a feature on their programs, and a subject of their discussions.

Of course, safety is an every day job. It is not something we can think about for a week and then forget. Over 3,000 rural residents die in home accidents every year. Nearly 230,000 others are injured.

Travel Now And Pay Later Is Plan

MIAMI—Announcement of the formation of the first extended credit system for travelers to anywhere in the world, with up to 20 months to pay, was made recently by a group of leading Miami financiers.

Vacation Plan, Incorporated, to be known as "V I P", and covering every possible expense, including transportation of all types, hotel or motel accommodations, meals, car rentals, night clubs, excursions and even fishing yacht rentals, is now in operation.

A national financial institution Beneficial Finance Company, with offices in 1154 cities in the United States, Alaska, Hawaii and Canada, in conjunction with V. I. P. will process the individual credit arrangements for all travelers using the V. I. P. system, under similar arrangements now used by scheduled airlines.

The plan, which will be international in scope, is directed toward the great mass public of moderate means and income, and is expected to open up a new and vast market for the travel industry, both here and abroad.

Already 22 Florida hotels and motels have signed as members of the new plan and representatives of leading Caribbean and Latin-American resorts have the system under consideration.

Leading resorts, hotels and motels in all parts of the United States, and in Europe, will be included in the new extended-credit arrangement.

These appalling statistics can be reduced only by constant vigilance against accident hazards.

World accidents on the farm kill 3,500 to 4,000 persons yearly, according to the National Safety Council. Although there are more deaths in farming than in any other major industry, the death rate per 100,000 workers is not as high as in the construction or mining industries. In general, accidents with farm machinery are decreasing, according to the Council. But tractor accidents are on the upswing. Each year more fatal tractor accidents occur in the 10-14 age group than in any other.

This seems to point up the fact that young people who don't know how to handle tractors are being allowed to operate them. A teenager, or anyone who operates a tractor should be thoroughly trained in all phases of tractor safety before he takes over the wheel.

There has been a steady decline of deaths and injuries. In 1959 the death rate per 100,000 farm persons was 62. Last year the number has fallen to about 57. The number of accidental injuries on the farm has decreased 300,000 in the last nine years.

But there's still a long way to go. A Council spokesman summed it up when he said, "The only way to tick farm accidents is to think safety, talk safety, and, most, important, to practice safety."

Home Demonstration Council Meets Next Week In Gainesville

GAINESVILLE — The 35th annual State Home Demonstration Council meeting and Short Course opens Monday at the University of Florida.

Miss Anna Mae Shikes, state home demonstration agent with the Florida Agricultural Extension Service, says over 500 delegates are expected for the five-day meeting, July 20-24.

This year's theme, "Keep the Lights Burning," will be carried out during the week's activities. Monday will be devoted to official registration.

Tuesday's program will feature short courses in fashion, family, economics, recreation, family life, home improvement, health, horticulture, music, and nutrition.

Workshops on citizenship, civil defense, family life, health, international affairs, publicity and safety are slated for Tuesday afternoon.

Speakers for these sessions include Dr. M. O. Watkins, Florida vice-president; Mrs. Lillie M. T. Crutchfield, Marianna, president. New officers will be elected and installed on Thursday.

"Florida Night," a program on Florida folklore, will highlight Wednesday night's activities. A fashion show is slated for Thursday evening.

Tours of the J. Hillis Miller Health Center, the Cancer Research Laboratory and special interest sessions on art, youth development, and clothing are scheduled during the week. Delegates will come from throughout the state.

Births

Mr. and Mrs. John V. Thomas, Jr., announced the arrival of a daughter at Everglades Memorial Hospital on July 9. The young lady has been named Theresa Lynn and will be called Terry.

CARD OF THANKS

With deepest gratitude we extend this word of thanks for many kind acts of sympathy, expressed by thoughtful friends. These kindnesses have meant much to us.

The W. J. White Family.

Mr. and Mrs. Collia Holt and family are expected to return to their home here this week after vacationing in Georgia with relatives.

Pick your savings target and shoot straight for it!

A home . . . financial security . . . a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you before you have a chance to spend it. Your money will go automatically into U. S. Savings Bonds.

For the big things in your life, be ready with U. S. Savings Bonds

The U. S. Government does not pay for this advertising. The Treasury Department thanks for their particular donation, the Advertising Council and

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months)—they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 19 years and 8 months. That means a return of up to 30% more than you originally paid.

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$750 a week. In 5 years you'll have Savings Bonds worth \$2053 in cash; in 10 years, \$4446.

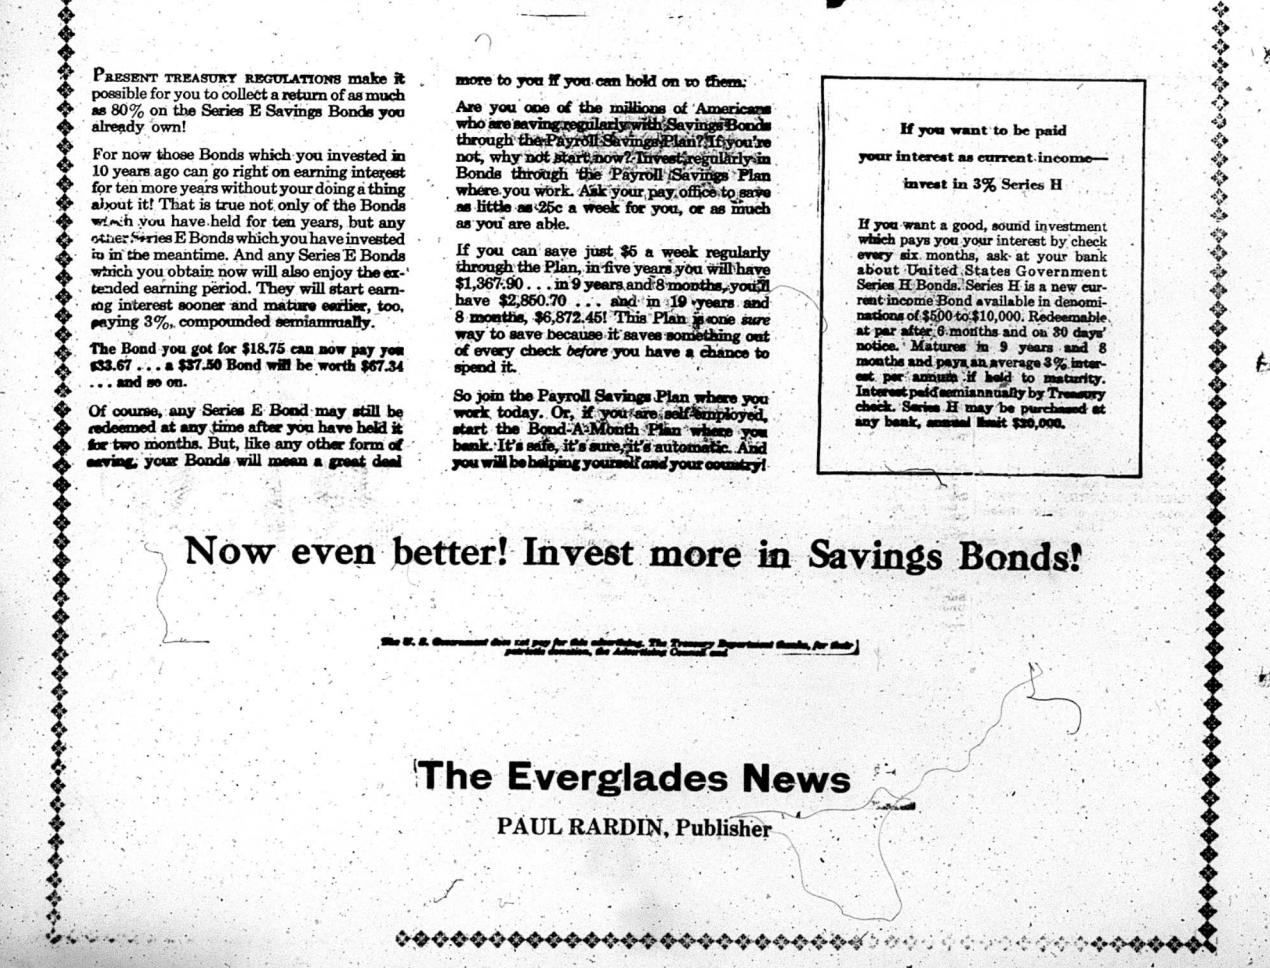

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.

The Everglades News

PAUL RARDIN, Publisher

*Uncle Sam made the bonds you own
an even better bargain!*

Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 . . . a \$37.50 Bond will be worth \$67.34 . . . and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them:

Are you one of the millions of Americans who are saving regularly with Savings Bonds through their Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25c a week for you, or as much as you are able.

If you can save just \$6 a week regularly through the Plan, in five years you will have \$1,367.90 . . . in 9 years and 8 months, you'll have \$2,860.70 . . . and in 19 years and 8 months, \$6,872.45! This Plan is one sure way to save because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where your bank is. It's safe, it's sure, it's automatic. And you will be helping yourself and your country!

If you want to be paid
your interest as current income
invest in 3% Series H

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased at any bank, annual limit \$20,000.

Now even better! Invest more in Savings Bonds!

The U. S. Government does not pay for this advertising. The Treasury Department thanks, for their
particular assistance, the Advertising Council and

...Growing With The Future

a castle in the air costs nothing —but you can't live in it!

Make your dream house come true! It's easy —through Payroll Savings!

If you think you can't own the home of your dreams because the down payment's too steep, chances are you've never tried the Payroll Savings Plan. Because this is the easy, automatic way to meet any down payment—for a house or any large purchase.

Just do this: sign a Payroll Savings application at your pay office, naming a certain sum to be kept aside from your pay before you get it each week—a few dollars or as much as you want. After that, you're saving automatically—nothing to worry about, nothing to do. And, best of all, the money saved out of your pay each week is automatically invested for you in U.S. Series E Savings Bonds. Because Savings Bonds earn solid interest—5% cumulative continuously when held to maturity

—the few dollars saved from your pay each week soon grow into big generous amounts. For instance, if you sign for \$12.50 a week, in just five years you'll have \$3,349.25 cash. In 9 years, 8 months, you'll have \$7,217.20!

So don't let down payments get you down. Most year needs for ready cash the way more than 8 million other Americans are meeting theirs—join the Payroll Savings Plan today. Or, if you're self-employed, invest in Bonds regularly where you bank. Start now to make your dreams come true!

For more about your interest or general information, and your local office Series E Bonds, which pay dividends monthly by Treasury check.

Awarded Honors At Summer Camp

John Cook Vandegrift, son of Mr. and Mrs. Roy Vandegrift, Jr., of Pahokee, has returned home after four weeks at the Citadel Summer Camp for Boys at the Citadel in Charleston, S. C.

At the graduation exercises, he was awarded The Mark Clark Outstanding Camper Award. Only campers with five excellent Achievement Awards in their selected sports receive this Mark Clark Award. It is highly coveted and the boys work long and hard for it.

John received awards in Camping, Basketball, Sail Boating, Water Skiing, three in Rifle Marksmanship, Lifesaving, and Drum and Bugle Corps.

This is a Summer Camp for boys from eleven to sixteen years of age. They use all the facilities of the Citadel College and are under the personal supervision of General Mark W. Clark, Commandant of the Citadel and Col. Charles J. Hoy, his Adjutant. Their instructors are Army Officers and their counselors are Citadel Cadets.

John attended this camp last summer for seven weeks. He also received the Mark Clark Award then, with awards in Junior Life Saving, Skiing, Wrestling, Archery, Boxing, Handicraft, two in Camping, and three in Rifle Marksmanship.

Mr. and Mrs. Thomas Elliott and son Larry have returned from Orlando where they visited their son and daughter-in-law Mr. and Mrs. Tommy Elliott and family. They were accompanied by Miss Barbara Masonic, of South Bay. While there they celebrated Larry's birthday anniversary.

Nursery Stock Exempt From Fees

Nursery stock dealers and agents in Florida are exempt from paying nursery inspection fees under terms of an amendment which became state law today (July 1).

The act, which originated in the house of representatives, directs that inspection fees apply to nurserymen only, with nurserymen, dealers and agents still required to register with the State Plant Board in obtaining a certificate of inspection. The bill was signed into law by Gov. Collins shortly before he departed for a tour of Russia.

The amendment reads:

"For any nurseryman, dealer or agent shall sell or distribute, or offer for sale or for distribution, any nursery stock in this state he shall apply to the board and obtain a certificate of inspection indicating that he has complied with the provisions of this chapter and the lawful rules and regulations made and promulgated by the board."

"Each application from nurserymen for a certificate of inspection shall be accompanied by a certificate fee in such amount as shall be determined by the board; and upon the issuance of such certificate it shall be renewed annually thereafter upon its anniversary date, upon satisfactory showing to the board that the provisions of this law and the regulations of the board have been compiled with and upon the payment of an annual renewal fee in such amount as shall be determined by the board."

Mrs. C. B. Jones and son, Alton, were guests of Rev. and Mrs. Dick Heller at Riviera Beach on Saturday. Rev. Heller is a former pastor of the Canal Point Baptist Church.

most miles per gallon

ONE OF THE 7 BIG BESTS CHEVROLET GIVES YOU OVER ANY CAR IN ITS FIELD

Take it, not from us, but from official results of this year's Mobilgas Economy Run: Chevy's pennypinching 6 delivers the most miles per gallon in its field. For a pair of these Chevrolet sixes with Powerglide walked away with the first two places in their class, getting the best mpg figure—a whooping 22.38—of any full-size car. And here are more expert, impartial opinions and on-the-record facts backing us up on Chevy's other six bests:

BEST TRADE-IN

Check the figures in any N.A.D.A. Guide Book. Chevrolet used car prices last year averaged up to \$128 higher than comparable models of the "other two."

BEST STYLE

It's the only car of the leading low-priced 3 that's unmistakably modern in every line. "In its price class," says POPULAR SCIENCE

magazine, "Chevrolet establishes a new high in daring styling."

BEST BRAKES

In direct competitive tests of repeated stops from highway speeds, conducted by NASCAR, Chevy let out-stopped both of the other leading low-priced cars—and why not: Chevy brakes are far larger, built with bonded linings, to help lengthen brake life by as much as 66%.

BEST ROOM

Official dimensions reported to A.M.A.† make this clear. For example, Chevy front seat hip room is up to 5.9 inches wider than comparable cars.

BEST ENGINE

Every motor magazine has given Chevrolet's standard and Corvette V8's unstinted praise. AS SPORTS CARS ILLUSTRATED puts it: "Indeed this device is surely the

most wonderfully responsive engine available today at any price."

BEST RIDE

MOTOR TREND magazine calls Chevy "the smoothest, most quiet, softest riding car in its price class." You'll be able to tell this yourself, instantly. And your Chevrolet dealer can tell you about a long list of other advantages besides these 7 big ones!
